[9/30 2:56 PM] Michael Souprounovich   Hey everyone, I'm here!

[9/30 5:18 PM] Colin Batiste   Hi Mike, how things going with your assessment 2 and weekly tasks? My weekly are going ok, Assessment 2 have started to do 'IT Technologies' and hope to get 'IT Work' done soon

[9/30 9:00 PM] Michael Souprounovich   Hey Colin Batiste, i'm a bit behind in weekly tasks so I am trying to catch up this week. I haven't started on Assessment 2, we probably should wait for the others to show up...

[10/3 9:19 PM] Michael Souprounovich   Hey everyone, I'm doing the IT Technologies for the Raspberry Pi and Robots reports, so don't do them - that's my job!

[10/4 3:31 PM] Michael Souprounovich   Hey Brendan Dilworth, can we have a look at the website? Can you give us a link to it?

[10/5 2:15 PM] Brendan Dilworth   of course! Url is that-team.com (If it doesn't work get rid of the "www.") Github repository URL: https://github.com/BrendanDRMIT/BrendanDRMIT.github.io.git

[10/5 6:57 PM] Michael Souprounovich   Thanks much! Did you use Wordpress or some other website creating tool?

[Monday 7:21 AM] Brendan Dilworth   using wordpress but because they want the site hosted by github i'm having to convert it to a static site and upload the site files into the github repository after every edit.

[Monday 5:41 PM] Colin Batiste   Hi Rahnny if you can do the Industry Data that would be great, You will have to go to the GitHub sites of all of us and work from that information. I would work on the information you have at the moment with our sites and when the others join, add their info into it. Don't want to have a big panic near time of submission.

[Monday 5:26 AM] Rahnny Tajaran   Hey guys! This is my first time using ms teams.. I had a look at the website and it looks cool! I will try and do the industry data report if no one has started it yet :)

[Monday 6:08 PM] Michael Souprounovich   Hey Rahnny, we have 3 IT tech reports done, and I'm working on the last one, so yeah, it would be awesome if you could do the industry data, as Colin Batiste said.

[10/5 8:30 PM] Michael Souprounovich   Hey everyone, I have uploaded the report for the Raspberry Pi for IT Technologies to the Files tab. Obviously it is not perfect, and I am having a little problem with the last section - how it will affect life. I am having difficulty in finding something to write about. Contributions and suggestions will be greatly appreciated! I am now working on the robots report.

[Monday 5:09 PM] Colin Batiste   Hi Michael i have added a bit to the end of your Raspberry Pi. Have a look and either reword or scrap, what ever you think fit

[Monday 6:08 PM] Michael Souprounovich   Thanks mate! I'll have a look now. It's perfect! Thanks!

[10/3 12:45 AM] Colin Batiste   Hi all, I have put a doc in the Files Tab (above). in it you can see what has been done and what hasn't. Please pick any item to be done, put your name next to it and complete ready for submission. Brendan if you have completed the items with a (?) put a Done in there. Also are you happy with us sending you the Tasks for you to post on the web site?

[10/4 3:12 PM] Brendan Dilworth   of course, send them through, i'll post them to the site.

[10/5 1:10 AM] Colin Batiste   Hi Brendan I have uploaded IT Work if it posts on the web site alright then I will upload other docs. Everybody else, have a look and see what you think.

[10/5 2:10 PM] Brendan Dilworth   I have uploaded this into the tasks section of the website (that-team.com) go check it out and let me know what you think, it is still very bare as I havent received any content yet besides the IT work.

[Monday 5:20 PM] Colin Batiste   Hi Brendan The (that-team.com) link is is a dead link for me, it points me to www.that-team.com is that right?

[Monday 6:11 PM] Michael Souprounovich   No, it doesn't have the www. Just type "that-team.com" into your browser's search bar.

[Monday 9:02 PM] Colin Batiste   hi Brendan web site looks great, thank-you, thanks Michael for pointing me in the right direction. My web site in assessment 1 sucks, big time, hope what I have is ok for this assessment. Brendan Iv uploaded a new version of IT Work as I think all submissions are to be in 'Harvard Style'.

[Tuesday 2:08 PM] Brendan Dilworth   Great, i'll check it out and upload it to the site

[Monday 9:29 PM] Colin Batiste   Brendan i have also uploaded 2 new docs, for the 'IT Technologies' section, Blockchain and Machine Learning

[Tuesday 2:09 PM] Brendan Dilworth   Great i'll check it out and upload it to the site

[Tuesday 2:13 PM] Brendan Dilworth   Lets try and chase down those last 2 websites and i'll see what i can do on the site to make it look good, Maybe putting them in as buttons with a little snip of each persons profile?

[Tuesday 2:18 PM] Michael Souprounovich   Sounds good!

[Tuesday 2:19 PM] Colin Batiste   iv sent them another message in Canvas, working that they will not be comeing

[Tuesday 2:23 PM] Michael Souprounovich   The others aren't coming? What do you mean?

[Tuesday 2:24 PM] Colin Batiste   have not heard from them since we started, not sure if they are still here

[Tuesday 2:29 PM] Colin Batiste   Brendan if you could post your github web site i can complete the Personal Information part also it will help Rahnny with his Industry Data.

[Tuesday 2:31 PM] Colin Batiste   Michael hows Robots going?

[Tuesday 2:32 PM] Michael Souprounovich   Good, about halfway done. Working on it right now.

[Tuesday 2:38 PM] Colin Batiste   Brendan, Rahnny, Michael, Alexander, Chol Everybody we need to have an idea for a Project Idea. My assessment 1 was to have automated street lighting

[Tuesday 2:40 PM] Michael Souprounovich   Colin Batiste Mine was to emulate a old video game console in Minecraft. Maybe a little too technical for everyone...

[Tuesday 3:11 PM] Rahnny Tajaran   Mine was an app for combatting plastic pollution and raising awareness.

[Tuesday 3:23 PM] Brendan Dilworth   My Project idea was an AI investor program using historic data compared against an individuals risk profile and asset allocation preferences to recommend buying and selling assets to continuously balance risk and maximise profit.

[Tuesday 6:13 PM] Michael Souprounovich   Hello everyone, I have completed the robots report. Please refer to the file I have uploaded.

[Tuesday 9:05 PM] Colin Batiste   Brendan, Michael, Rahnny Ok everyone Assessment 2 has to be submitted by end of this week, lots to do. Brendan don't submit to web site yet as all information has to be in 1 PDF doc then submitted. All submissions have to be in the Harvard Style format, Michael im going to reformat your Pi and Robots to that style. Rahnny you should have the **Industry Data** information you need now to complete. All of the **Project Ideas** are great i don't think we should think of a new one so im ok with Brendan's (as long as you can have it done by the end of the week). **Feedback** looks like we don't have to do (its not working)

[Yesterday 11:22 AM] Colin Batiste   Rahnny hows the **Industry Data** going? if any problems let me know. Also could you submit a 200 word report for **Group Reflection**

[Tuesday 10:21 PM] Colin Batiste   Michael i have altered your reports, if happy with them let me know

[Yesterday 7:33 AM] Michael Souprounovich   Looks good, thanks!

[Yesterday 7:35 AM] Michael Souprounovich   Colin Batiste, anything else you want me to do?

[Yesterday 11:19 AM] Colin Batiste   Hi Michael glad you like it. In **Group Reflection** we all have to submit 200 words each and 400 words as a group, if you want to do that? I will be working on my 200 words soon.

[Yesterday 11:27 AM] Michael Souprounovich   I'm on it.

[Yesterday 3:01 PM] Michael Souprounovich   Hey everyone, I have completed my group reflection and have uploaded the file.

[Yesterday 1:40 PM] Michael Souprounovich   Colin Batiste are we supposed to do the 7.2.1 task - writing a report for our company? https://rmit.instructure.com/groups/159488/discussion_topics/506747?module_item_id=1868406 I can do it myself if it is OK with everyone?

[Yesterday 4:33 PM] Colin Batiste   Posted..... 7.2.1 Group doc

[Tuesday 10:57 PM] Colin Batiste   Brendan could you upload your GitHub site so that I can complete the **Personal Information**

[Yesterday 6:49 PM] Brendan Dilworth   I have been doing some updates to my site to make it cleaner. I have uploaded it now

[Yesterday 6:53 PM] Michael Souprounovich   Neat!

[Yesterday 11:28 AM] Colin Batiste   Brendan is **Project Ideas** still ok? Also could you submit a 200 word report for **Group Reflection** and comments for **Tools** and don't forget the GitHub site

[Yesterday 8:52 PM] Brendan Dilworth   I have just uploaded my group reflection and project idea (this is the same as on my site) give me some feedback if you guys want to add anything or whatever.

[Yesterday 9:34 PM] Colin Batiste   Hi all have uploaded Team Profile and my Group Reflection

[1:35 AM] Colin Batiste   Brendan Michael Rahnny I have uploaded Group Reflection Team, it needs to be about 400 words long. please add something to it. thanks

[3:26 PM] Brendan Dilworth   check out this link and let me know what you think, if you like it i will format all like this. http://that-team.com/2019/10/10/raspberry-pi-report/

[1:37 PM] Colin Batiste   Hello Brendan, Michael and Rahnny Well this is almost it, I feel the submitted tasks are great, Rahnny please upload **Industry Data** and your **Group Reflection**.
I think their only 3 other items to do, **Ideal Jobs**, **Comments** in Tools and for everybody to chip in to **Group Reflection Team**. Feedback in SparkPLUS will need to be done by all of us also. Don't forget the assessment has to be submitted this week as a PDF Report, you ok to do that Brendan? Im not going to be here for the next few days but will catch up with you all at the weekend.

[2:05 PM] Brendan Dilworth   To confirm, What exactly would you like me to do ? do you want me to upload all onto the website and print each page into the same pdf ?

[2:33 PM] Colin Batiste   Hi Brendan, I think the tasks need to be "Formatted and presented in a PDF Report" then uploaded to the group site.
Not sure if in 1 PDF or a PDF for each task, im thinking a PDF for each task

[2:37 PM] Brendan Dilworth   Okay, interesting. what I might do is upload them individually as group posts (this will look nice) and I will include a link on each post with a PDF version. what i can then do is collate all of them into one pdf containing the whole assignment and link that on the home page. just to be sure.

[2:40 PM] Colin Batiste   Sound good to me

[2:48 PM] Colin Batiste   Over the next day or so check if Rahnny has submitted his parts

[2:49 PM] Colin Batiste   Im trying to get the IDEAL JOBS part done

[3:06 PM] Brendan Dilworth   so all that's left for me to do is the site stuff ? (converting to pdf's and uploading to the site)

[3:13 PM] Colin Batiste   'Comments on how well the audit trail reflects the groups work'
        Add something to the GROUP Reflection
        Complete SparkPLUS
        Check for Rahnnys reports
        Upload in a few days and have a beer

[3:27 PM] Brendan Dilworth   so i have looked back over the task sheet, will we be submitting an activity log from Microsoft teams? i assume they will reference this for " how well the audit trail reflects the groups work"

[3:31 PM] Colin Batiste   Web Site looks great

[3:32 PM] Colin Batiste   Have looked into downloading the logs for our chat but MS Teams hasn't enabled that to be done yet

[3:33 PM] Colin Batiste   either its screen shots or cut and paste

[3:39 PM] Brendan Dilworth   could we maybe include a link to the channel ? (like the one below)(https://teams.microsoft.com/l/channel/19%3a237daa52a78d4ee7812961b010cd37a5%40thread.skype/General?groupId=3ff58a2b-4fda-498a-a66f-60c543b282a9&tenantId=d1323671-cdbe-4417-b4d4-bdb24b51316b)

[3:35 PM] Colin Batiste   Have just uploaded Ideal Jobs, bit rushed, see what you think

[3:40 PM] Brendan Dilworth   Cheers Colin, i'm trying to get as much work done this arv as i can so will have a look.

[4:23 PM] Colin Batiste   Brendan had a look at the link, i don't think it will work as permission would need to be given to whoever want to access teams im looking at other way to do it

[4:24 PM] Brendan Dilworth   I thought this might be the case but was unsure, let me know how you go

[Thursday 4:51 PM] Colin Batiste   OK i think i have cut and paste all of the chat
Will work on it later and upload Friday night or Saturday

[Thursday 4:53 PM] Colin Batiste   Have to go now, will log in over the weekend

[Thursday 3:26 PM] Brendan Dilworth   check out this link and let me know what you think, if you like it i will format all like this. http://that-team.com/2019/10/10/raspberry-pi-report/

[Thursday 5:47 PM] Michael Souprounovich   It's a beaut!

[Thursday 1:37 PM] Colin Batiste   Hello Brendan, Michael and Rahnny Well this is almost it, I feel the submitted tasks are great, Rahnny please upload Industry Data and your Group Reflection.
I think their only 3 other items to do, Ideal Jobs, Comments in Tools and for everybody to chip in to Group Reflection Team. Feedback in SparkPLUS will need to be done by all of us also. Don't forget the assessment has to be submitted this week as a PDF Report, you ok to do that Brendan? Im not going to be here for the next few days but will catch up with you all at the weekend.

[Thursday 2:05 PM] Brendan Dilworth   To confirm, What exactly would you like me to do ? do you want me to upload all onto the website and print each page into the same pdf ?

[Thursday 2:33 PM] Colin Batiste   Hi Brendan, I think the tasks need to be "Formatted and presented in a PDF Report" then uploaded to the group site. Not sure if in 1 PDF or a PDF for each task, im thinking a PDF for each task

[Thursday 2:37 PM] Brendan Dilworth   Okay, interesting. what I might do is upload them individually as group posts (this will look nice) and I will include a link on each post with a PDF version. what i can then do is collate all of them into one pdf containing the whole assignment and link that on the home page. just to be sure.

[Thursday 2:40 PM] Colin Batiste   Sound good to me

[Thursday 2:48 PM] Colin Batiste   Over the next day or so check if Rahnny has submitted his parts

[Thursday 2:49 PM] Colin Batiste   Im trying to get the IDEAL JOBS part done

[Thursday 3:06 PM] Brendan Dilworth   so all that's left for me to do is the site stuff ? (converting to pdf's and uploading to the site)

[Thursday 3:13 PM] Colin Batiste   'Comments on how well the audit trail reflects the groups work'
Add something to the GROUP Reflection
Complete SparkPLUS
Check for Rahnnys reports
Upload in a few days and have a beer

[Thursday 3:27 PM] Brendan Dilworth   so i have looked back over the task sheet, will we be submitting an activity log from Microsoft teams? i assume they will reference this for " how well the audit trail reflects the groups work"

[Thursday 3:31 PM] Colin Batiste   Web Site looks great

[Thursday 3:32 PM] Colin Batiste   Have looked into downloading the logs for our chat but MS Teams hasn't enabled that to be done yet

[Thursday 3:33 PM] Colin Batiste   either its screen shots or cut and paste

[Thursday 3:39 PM] Brendan Dilworth   could we maybe include a link to the channel ? (like the one below)(https://teams.microsoft.com/l/channel/19%3a237daa52a78d4ee7812961b010cd37a5%40thread.skype/General?groupId=3ff58a2b-4fda-498a-a66f-60c543b282a9&tenantId=d1323671-cdbe-4417-b4d4-bdb24b51316b)

[Yesterday 1:05 AM] Rahnny Tajaran   Hey guys my apologies currently dealing with family issues but will be looking to finish the report soon..

[Yesterday 8:42 AM] Michael Souprounovich   Hey everyone, I have completed my feedback on this group on sparkPLUS. I am not sure if my feedback is available for everyone to see...

[Yesterday 1:25 PM] Rahnny Tajaran   Hi Team, I have uploaded the industry data report. I am not sure if the format is correct but feel free to correct any mistakes. Apologies on the delay. I will now be doing the group reflection.

[Yesterday 3:54 PM] Brendan Dilworth   Hey all, go check out the website (http://that-team.com/) i'm still waiting on some content from you guys, if I could get that posted in here tonight would be great so that I can upload it to the site tomorrow. If you make any edits to anything already on the site, make sure that you let me know so that I can update it. In the PDF page on the website i will collate all of the individual files into one pdf and post it there, i will also generate a pdf for each page on the site and merge them. this will look nicer and more formatted compared to the alternative. still a bit to do so the sooner we can get the remaining content complete the better!

[Yesterday 7:49 PM] Michael Souprounovich   It's looking great!
